Following its acquisition by The Walt Disney Company in 2012, Lucasfilm rebranded most of the novels, comics, video games and other works produced since the originating 1977 film Star Wars as Star Wars Legends and declared them non-canon to the rest of the franchise.[1][2][3] As such, the list contains only information from the Skywalker Saga films, the 2008 animated TV series Star Wars: The Clone Wars, and other films, shows, or video games published or produced after April 2014. The list includes humans and various alien species. No droid characters are included; for those, see the list of Star Wars droid characters.
